Architectural and Engineering Consultant Contract Review

Division of Local Assistance Office Bulletin (DLA-OB) 17-02 updates the Architectural and Engineering (A&E) Consultant Contract Reviewers Checklist (Local Assistance Procedures Manual (LAPM) Exhibit 10-C) and submittal procedure to increase local agency compliance with federal and state consultant procurement requirements and identifies deficiencies considered procedural and unrecoverable.

I. BACKGROUND

On July 15, 2011, the Office of Inspector General (OIG) reviewed the Federal Highway Administration's (FHWA) oversight of Federal-Aid and Recovery Act projects administered by local agencies in California. OIG determined that FHWA and the California Department of Transportation (Caltrans) were not managing risks properly and many projects were found noncompliant with federal regulations.

As a result of the deficiencies found in the Federal-Aid Highway Program, FHWA revised Title 23 CFR 172 on May 22, 2015 to update and clarify the procurement, management, and administration of engineering and design related services.

II. POLICY

Exhibit 10-C is revised to identify critical elements of the consultant procurement process to increase compliance with Title 23 CFR 172 and Government Code 4525-4529.5. Items not completed in the checklist may jeopardize federal and/or state project funding. A completed Exhibit 10-C for new or amended federal and/or state funded consultant contracts must be accepted by Caltrans prior to contract award.

The following are considered unrecoverable deficiencies and shall result in the withdrawal of all or a portion of the federal and/or state funds from the project:
